Examiner's Comments

For applicant's information, the amendments to the abstract and drawings filed July 27, 2005, overcome the previous objections to the specification.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: none of the prior art alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103.

Specifically regarding independent claim 4, none of the prior art alone or in combination disclose or teach of a lens unit for a scanning device having a frame including a hollow cylindrical shape and a retainer to retain the lens in position, wherein deformation of the frame, lens, and retainer due to a load generated as the retainer presses the lens absorbs deformation of the frame, lens, and retainer due to temperature change as disclosed, specifically wherein the linear expansion coefficient, elastic modulus, and cross-sectional area of the lens, frame and retainer in combination satisfy the claimed condition.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
